P₅BL Approach

1. **People** – Designate the roles for the members of the flexible group.

2. **Problem** - Identify a unique challenge, problem or task.

3. **Process** – Ask the questions. Record the specifics, materials and resources.

4. **Product** – Respond with a plan of action toward a resolution to the problem.

5. **Project Based Learning** – Deliver your results, product, and presentation.

Project Based Learning Guidelines

1. **Identify** a unique challenge or problem.

2. **Investigate** the challenge using the inquiry process & apply ideas in the discipline.

3. **Explore** the ideas and challenge them through collaborative activities.

4. **Utilize** the inquiry process and resources to refine products.

5. **Develop & Deliver** the summative product that addresses the challenge or problem & publically share it.
